

Stronghold Games Announces Opening of Preorders for Code 777 on July 8

New Jersey, USA and Ontario, Canada -- July 7, 2010

Stronghold Games is proud to announce the opening of the preorder program for Code 777, the highly-regarded deduction game, being produced in a 25th Anniversary Deluxe Edition.

Preorder customers will receive a discount of 35% off MSRP as well a guarantee that preordered games will ship before retail games are shipped.

In an important change from traditional preorder programs, Stronghold Games only opens a preorder once the game itself has been produced and shipped from the production facility. In this way, it is much easier to control for delays as the game is already on its way to the warehouse for processing and shipping to preorder customers. Stronghold Games is proud to pioneer this important change in the game industry.

Customers interested in placing a preorder for Code 777 should act quickly, as preorders are limited to just 500 copies before preordering closes. Preorders will be accepted starting on July 8 and will end after 4-6 weeks, at which time we will ship Code 777 to our preorder customers. Shipments to distributors and retailers will only begin after shipment of games to our preorder customers.

Preorders for Code 777 can be placed at www.stronghold-games.com starting on July 8th.

About Code 777

Crack your code first! You can see your opponents' codes but not your own. Using questions and logic, try to deduce which three numbers are hidden in front of you. Once you're reasonably sure, then you can take a guess. But if you're wrong, you have to start over with a fresh set of tiles...

This deluxe edition of Code 777™ has been expanded to allow for up to 5 players (from the previous 4 player editions). All of the components have been upgraded to the highest-quality levels. And our Code 777™ is also the first edition to be colorblind friendly! Stronghold Games is proud to bring this great deduction game back into print by popular demand after being unavailable for over 10 years worldwide.
